Willing to relocate: Anywhere

Authorized to work in the US for any employer

Work Experience

Independent Contractor/Merchandiser

Merchandiser by survey.com - Daphne, AL

February 2024 to Present

I am contracted by various companies to do photo audits, down stocking, inventory/count adjustments, cut ins, shelf replenishment, resets through planograms, etc.

The biggest job I've done with this company is resetting the Frito Lay section at Family Dollar and Dollar General. I can read planograms and layouts with efficiency.

Driver/Warehouse Manager

SOHO Events and Rentals - Fairhope, AL

April 2022 to January 2024

I helped installed rental equipment for weddings and events, such as tables, chairs, staging, dance floor, and structure tents, as well as table linens and catering equipment.

My job for the first half of employment was to operate our 26ft box trucks or flatbed trucks to and from job sites, and help with install/takedown.

For the latter half, I became the manager of our tent warehouse. It was my duty to pull, package, and load deliveries, as well as load, unload, process/inventory, and clean/repair all incoming equipment.

As I was the only worker in this warehouse for most of my employment, or only having a team of 1-2 more individuals, and because nobody worked in here prior to me (the tent install crew tried doing work in here when they weren't in the field), it was completely disorganized and out of order when I began.

By the end of my employment, the entire warehouse was orderly and organized. I found more efficient placing of certain tools and products, and implemented many different operating methods and processes that save time and raise efficiency, from how we process our returning equipment, package our loads, and clean our equipment, to where we set things to shorten walking time and how we secure loads with straps to improve safety

Crew Leader

Miller's Grand Events - Daphne, AL

April 2018 to January 2022

I worked for Miller's Grand Events starting as a crewman, working my way to Warehouse Manager, then Co-Crew Leading and driving. (We had one guy who was the "crew Leader" because he had been there so long but leading the labor and training people and the brunt of the work was on me. He drove when he was at work but dropped to part time so we split the leading position.) We had to clean and maintain our rental equipment and tents, run deliveries and installs, load and unload customer orders, I maintained

inventory as well. These were small to medium scale jobs. I had to plan our route as there were sometimes many jobs a day for one crew.

Owner

Kirby Moving Solutions - Daphne, AL
September 2019 to March 2020

I opened a moving service, successfully operating it until March 2020 when I had to close down due to CoVid and lack of labor.

Delivery Driver/Warehouse

Event Rentals Unlimited - Birmingham, AL
March 2017 to July 2017

I started here as a crewman helping make deliveries and tent installs, doing small to large scale event set ups. We loaded our orders the night before. I was quickly promoted to Driver, which I was not the leader of the crew as my crew was highly skilled just unable to drive. We cleaned and repaired and maintained all rental equipment, worked face to face with wedding planners. These were larger scale jobs.

Cashier/Dairy Frozen Food Associate

Winn-Dixie - Daphne, AL
September 2009 to October 2013

1. I was a cashier for the first 6 months of my employment. It was my job to check out customers buying groceries, as well as bag their groceries for them.
2. For the latter 3 1/2 years, I was an associate for the dairy/frozen food department. I stocked the shelves of new product when it came in, as well as went through back stock. I made sure there was no expired product in either department, scanning the items out under correct protocols. Daily temperature logs were kept up with. Customer service was offered, as I had to offer assistance to every customer who passed by. Towards the end of my employment, I also learned how to make orders for the department, as it was only me and the manager in the department during my entire employment there.
3. The department was disorganized and there was more back stock than there should've been when I started. Over the first 18 months of working there, I helped the manager get the department beat and orderly, with all extra back stock shelved and the freezer/cooler areas neatly organized.

Education

Some College in General Studies

James H Faulkner State Community College - Fairhope, AL
August 2011 to December 2011
